A

Accidents. *See* Fractures; Wounds; *and under parts of body involved.*
Acetabuloplasty
innominate osteotomy for paralytic dislocation of hip in spina bifida, 238.
shelf operation, 772.
Achilles tendon. *See* Tendo calcaneus.
Acromegaly, calcium metabolism in, 190.
Acromioclavicular joint, dislocation of, 196, 579.
— Stuck nail fixation for, 197.
Adrenocortical steroids
effects of hydrocortisone on musculo-skeletal tissues, 195.
treatment with, complications:
— arthropathy and tendon rupture (*editorial*), 397.
— disorganisation of knees following intra-articular hydrocortisone injections, *498.
— rupture of patellar ligament, *503.
Albee, F. H., 2.
Aldermaston, Atomic Weapons Research Establishment, work on metallic implant materials at, 773.
Amelia, 399.
American Orthopaedic Association. *See also* Travelling Fellowships in Orthopaedic Surgery.
American Society for Surgery of the Hand, prize essay competition (*announcement*), 393.
Amputation(s)
congenital. *See also* Dysmelia.
Syme's, 780.
— review of 67 cases, *482.
traumatic, of thumb, transfer of great toe for, *677.
Aneurysmal bone cyst of frontal bone, *344.
Aneurysms
arteriovenous. *See* Arteriovenous fistulae.
post-operative, of descending genicular artery presenting as pulsating haemarthrosis of knee, *506.
Ankle
arthrodesis, *53.
injuries, epiphysial, partial, 779.
ligaments
— lateral, injuries of, 195.
— tibiofibular, injuries of, *330.
mechanics, 776.
Ankylosing spondylitis, osteotomy of cervical spine in, 193.
Ankylosis
changes in cartilage of posterior intervertebral joints after anterior fusion, *736.
See also under names of joints, and under Spine.
Anterior tibial artery, aneurysm of, complicating fracture of tibia and fibula, 683.
Anticoagulants in prophylaxis of deep venous thrombosis following hip surgery, 565, 566.
Aorta, injuries of, complicating lumbar disc surgery, 4.
Arteries
axillary, injury of, complicating closed fracture of neck of humerus, *508.
genicular, descending, post-operative aneurysm of, presenting as pulsating haemarthrosis of knee, *506.
See also Vascular . . .
Arteriovenous fistulae
congenital, associated with melorheostosis, long follow-up, *126.
complicating lumbar disc surgery, *4.
complicating removal of iliac graft for spine fusion, 193.
Arthritis
degenerative. *See* Osteoarthritis.
experimental adjuvant polyarthritis, 192.
inflammatory involvement in, isotopic estimation of, 565.
rheumatoid
— hand and wrist in:
— — attrition rupture of flexor tendons caused by bony spurs in carpal tunnel, *270.
— — ulnar drift deformity, influence of wrist position on, *664.
— hip in, surgery of: arthroplasty, replacement, 386.
— knee in, surgery of, 779.
— — arthroplasty
— — — mould, *76.
— — — Shiers prosthesis, 386.
— — osteotomy
— — — double, 180, *694.
— — — of tibia, *95, 179.
— — synovectomy, 181.
— peripheral, local intravenous block for, 779.
— spine in: atlanto-axial instability, occipito-cervical fusion for, *423, 579.
Arthrodesis
by interposition of plate of avascular cancellous bone, 567.
See also under names of joints, and under Spine.
Arthrography
of ankle sprains, 195.
of knee for meniscus injuries, 195.
Arthrogryposis multiplex congenita, 191.
Arthropathy
Charcot's, in congenital insensitivity to pain, 192.
steroid-induced (*editorial*), 397.
— of knee following intra-articular hydrocortisone injections, *498.
Arthroplasty
articular cartilage homografting in, experimental study, 566.
See also under names of joints.
Artificial limbs
externally powered, for congenital amputees, 574.
immediate post-operative fitting of, 198.
Association of Surgeons of East Africa, annual meeting, 1968, 391.
Association of Surgeons of India. *See also* Indian Orthopaedic Association.
Atlanto-axial joint instability, occipito-cervical fusion for, *423, 579.
Atomic Weapons Research Establishment (Aldermaston), work on metallic implant materials at, 773.
Australia: appointment of T. K. F. Taylor to Chair of Orthopaedic Surgery, University of Sydney, 777.
Autoradiography: nutrition of articular cartilage studied with ^{35}S, *140.
Axillary artery injury complicating closed fracture of neck of humerus, *508.

B

Back pain, low
and men receiving workmen's compensation, 778.
treatment, arthrodesis, selection of patients for, 191.
Barlow splint, facial paralysis due to faulty adjustment of, *714.
Barry, Bartholomew Oscar (*obituary*), 176.
Battered baby syndrome, infantile coxa vara as manifestation of, *106.
Bilharziasis. *See* Schistosomiasis.

Bintcliffe, Eric William (*obituary*), 770.
Bioengineering, development patterns in, 566.
Bone and bones
age changes as indicated by measurements of metacarpal bone thickness, 575.
blood supply after experimental osteotomy, 568.
calcification
— in osteomalacia, *511.
— role of alkaline phosphatase in, 575.
congenital disorders:
— dysmelia, classification and pattern of malformation in, *399.
— *See also specific terms.*
cysts
— aneurysmal, of frontal bone, *344.
— simple, 579.
density
— effect of natural and artificial menopause on, 190.
— normal variations in selected bones in North India, necropsy study, *719.
dysplasia of uncertain diagnosis in a kinship, 776.
fibroblastic lesions of, enzyme histochemistry of, 383.
fibrous dysplasia
— in etiology of infantile pseudarthrosis of tibia, *604.
— monostotic, *300.
grafts and grafting
— autogenous
— — delayed, for infantile pseudarthrosis of tibia, *604.
— — iliac bone, arteriovenous fistula complicating removal of, 193.
— — pedicle, experimental work in dogs, 567.
— experimental: growth of autografts in rabbit ear chambers, *372.
— for non-union and delayed union of fractures: autogenous cancellous strip grafts, *63.
— homogenous, in Russia, 181.
growth
— and skeletal maturation, effects of hormones on, 189.
— longitudinal
— — effect of epiphysial stapling in rabbit, *359.
— — *See also* Epiphysial cartilage.
— *See also* Osteogenesis.
infections. *See* Osteomyelitis.
lipids of, effect of oestrogens on, in rats, 387.
mineral, *in vivo* exchange of major constituents of, 384.
Paget's disease, sarcoma in, *205.
— fibrosarcoma, *20.
radiation injury to: clones in bones, 385.
radioisotope scanning of, with strontium, 192.
repair and regeneration:
— bone vascularity after experimental osteotomy, 568.
— experimental evidence for a theory of, 567.
— role of periosteum, in parietal bone of rats, 383.
— *See also* Fracture healing; Osteogenesis.
resorption, effect of some hormones on, in tissue culture, 186.
screws, strength and holding power of, *754.
sesamoid, of great toe, osteomyelitis of, *464.
structure
— in osteomalacia, with special reference to ultrastructure, *511.
— of vertebral spongiosa, *540.
tumours
— fibroblastic, enzyme histochemistry of, 383.
— fibrosarcoma, review of 50 consecutive cases from Bristol Bone Tumour Registry, *20.
— malignant, treatment, cryosurgery, experimental study, 388.
— osteoid osteoma in childhood, 196.
Bone and bones
tumours (*continued*):
— pseudomalignant osseous tumour of soft tissue, *654.
— sarcoma in Paget's disease, *205.
— *See also* Bone cysts.
ultrasound transmission in, 388.
See also names of bones.
